Genuine gemstones are one of Mother Nature's greatest treasures and, being a natural product, each one may vary. As such, all carat weight and measurements stated are averages and may vary, except where we give an MTGW or 'Minimum Total Gem Weight'. We always endeavour to ensure the specified origin of all gemstones is accurate, but we cannot always verify the reported origin. For details on gemstone treatments please visit www.gems.tv/treatments. All metal weights are the average for this design.
